

ABSTRACT OF THE DISCLOSURE

The present invention is directed to a method and apparatus in which a consumer, without technical skill or special tools can quickly and easily change or add a color to the computer case of their personal computer. Because of the large number of available color panels, it is necessary to provide an aftermarket kit in  
5 which the consumer can customize the computer case. Advantageously, this permits the consumer to have a computer in green, blue, red, violet, etc. Also, advantageously, the consumer merely needs to remove a plurality of hole plugs and then install the color panels using supplied attachment feet or mounting plugs.
